

WHY sponsor Teamwalkerpete's Night of Black and Gold?

The Teamwalkerpete Foundation was created to honor the life of childhood cancer warrior, **Nicholas Walker Peters**.

Nick was just 17 years old when God took him home after a 7-year battle with leukemia, through TWO relapses and a bone marrow transplant from his perfect match sister and best friend, Ashley.

He was a loving, selfless young man with an entrepreneurial spirit who was happiest making others happy and making \$\$\$. He had many successful business ventures in his short life and planned to grow his own company when he got out of Texas Children's Hospital, but instead, suffered complications following the transplant that ultimately took him "Home" after 7 months in Houston, 3 of those in PICU (pediatric intensive care).

The Teamwalkerpete Foundation seeks to honor his memory by assisting others diagnosed with childhood cancer and blood

Some of our projects include:
